「イワナおよびサクラマスに関する国際会議」のお知らせ

1988年10月3日から10日まで、札幌において上記の国際会議が開かれます(後援:魚類学会等)、興味をお持ちの方は下記サーキュラーを御参照下さい。また、現時点で参加可能な方や、研究発表等を希望される方は、その旨を下記宛に3月末までにお申し込み下さい。参加会費は25,000円です。会費の払い込みはすでに受付けていますので、お早目に下記にお振り込み下さい。

(前川光司 Koji Maekawa)

事務局: 041 函館市港町 3-1-1 北海道大学水産学部
発生学遺伝学講座内

振り込み先: 函館 6-9764

口座名: 国際イワナ・マス会議

**International Symposium on
Charrs and Masu Salmon
(October 3-10, 1988)**

In May, 1981, the first international symposium on charrs was held in Winnipeg, Canada. Since that time, research activity on charrs has increased in the various countries. We feel that the time has come to convene a second meeting on the charrs. The abundance of local varieties of charrs still causes considerable confusion in the development of orderly systematics. The symposium will consider ecological and genetic aspects of this problem. Also it will provide a forum for the presentation of review papers and the exchange of information on all biological aspects of charrs. Masu salmon, the oriental species of Pacific salmon is included because this species also has a varied life history, and exhibits complex problems of life forms as in charrs. Consideration will be given to the propagation of the exceptional variety of charrs and masu salmon for sports fishing and coastal fisheries.

Venue

The symposium will be held in Sapporo, which is the capital city and the most important center of economic and social activity in Hokkaido Island, Japan. The population of this city is 1.5 million. The headquarters of the Hokkaido Fish Hatchery and the Hokkaido Salmon Hatchery are located in Sapporo. The Salmon Science Center is also located in Sapporo working to spread scientific knowledge on salmon. The symposium will be held at the conference hall on the main campus of Hokkaido University. The weather of Sapporo in October is fairly cool. The average temperature at this time is 7.3-

17.5°C, average 12.2°C. The salmon return to their natal rivers from September to November in Hokkaido Island.

Sessions

The symposium will include the following sessions.

1. Review of charr problems
2. Review of masu salmon propagation
3. Taxonomy and systematics including cytogenetics
4. Migration and land-locked
5. Spawning ecology and life history
6. Intra- and interspecific relationship
7. Reproductive physiology and propagation
8. Genetics and electrophoretic characteristics
9. Development and chromosome set manipulation
10. Diseases and control
11. Conservation, management and sports fishing
12. Charrs, masu salmon and human being
13. Others

Finance

The executive committee will finance the organization and conduct of the symposium, printing of abstracts, publication of the proceedings and accommodations for foreign participants of the symposium. Boarding, travel costs, tourist excursions and other expenditures will be the responsibility of the participants themselves or their sponsors.

Excursions

An excursion to salmon hatcheries of the central and the provincial governments will be arranged during the symposium. After the symposium the following three excursions may be arranged on request from October 10 to 17.

1. Visits to the spawning grounds of charr and masu salmon in eastern Hokkaido. The members leave Kushiro for Tokyo on October 13. The cost per person for this excursion will be \$250. This doesn't include air charge from Kushiro to Tokyo.
2. Visits to local masu salmon hatcheries, scallop and sea weed culture zones in southern Hokkaido. The members will leave Hakodate for Tokyo on October 13. The cost will be \$200. This doesn't include air charge from Hakodate to Tokyo.
3. Visits to habitats and hatcheries of Japanese charr and amago salmon, variants of masu salmon, in the main Island. This excursion will

be arranged following excursion No. 1 and No. 2 from October 13 to 17. It will start from Tokyo on October 13. The cost will be \$400. On October 18 the members will leave Kyoto for home.

Language

The working language of the symposium will be English.

Registration fee

A registration fee of ¥25,000 will be charged for all participants from Japan and abroad. Payment must be made by cash or travellers checks only. Personal checks are not accepted.

Proceedings

The proceedings of the symposium will be published after the symposium. All speakers in the symposium are advised to present the manuscript at the symposium to contribute to the proceedings. All printed contribution will be refereed. The proceedings will be published in August 1989.

Organizing committee

Prof. Hiroya Kawanabe: Chairman, Department of Zoology, Kyoto University
Prof. Fumio Yamazaki: Secretary-general
Lionel Johnson (Winnipeg)
Lennart Nyman (Drottningholm)

Supporter's organizations

The Ichthyological Society of Japan
The Japanese Society of Scientific Fisheries
The Ecological Society of Japan

Japanese Society of Limnology
Zoological Society of Japan
Northern Regions Center

Announcement and request

Don E. McAllister is compiling a computer *List of fishes of the world*. This includes taxon, author and date, arranged in a classification based on Nelson's *Fishes of the world*. This is just a WORKING compilation and as such contains errors and duplications, and of course many omissions. As yet only a couple of hundred sources have been consulted. As of 9 October 1986 the 875 page list contained 18,663 "valid" species (out of an estimated 21,723 world total), 7249 species synonyms/homonyms, 4221 genera, 515 families, a total of 37,077 nominal taxa and weighed 2.2 kg. If W.N. Eschmeyer launches a catalog of fish species of the world project this list could contribute towards that proposal.

I would like to request papers with descriptions of new fish taxa and revisions of broad faunistic reviews published in the last 5 years. I would like to ask experts if they would revise parts of the list; they would receive credit and a printout of their section of the list before and after their editing.

Printouts can be provided to non-contributors. Donations would be appreciated to defray cost of printouts and surface mailing. Donations of 5 cents per page for parts and 15 U.S.\$ for the whole list are suggested. Make any cheques payable to the Ichthyology Research Trust Fund and mail them to: Ichthyology Section, National Museum of Natural Sciences, Ottawa, Ontario K1A 0M8, Canada.

(Don E. McAllister)

会 記・Proceedings

昭和 61 年度第 5 回役員会

昭和 61 年 9 月 30 日 (火), 於東京水産大学, 出席者: 阿部, 新井, 沖山, 黒沼, 隆島, 谷内, 中村, 松浦, 丸山, 望月.

議事: 1. 前回記録の確認. 2. 報告事項. 3. 海外購読料について検討し, 円高に合わせ, 年額 72 ドルとすることを決定した. 4. 会費滞納者について検討し, 昭和 59 年度以前からの滞納者について退会処置が妥当であるかどうか, 評議員の意見を求めることにした. 5. その他.

昭和 61 年度第 6 回役員会

昭和 61 年 12 月 15 日 (月), 於東京水産大学, 出席者: 岩井, 上野, 石山, 谷内, 多紀, 松浦, 丸山, 望月.

議事: 1. 報告事項. 2. 昭和 62 年度シンポジウムについて検討し, 北海道大学の尼岡氏に依頼することにした. 3. 会費滞納者について評議員からの回答をあわせて検討し, 昭和 59 年以前より滞納している者については, 再度納入の有無を確認の上, 原則として退会処置をとることにした. また, 昭和 60 年度から滞納している会員については, 次の評議員会で退会の可否を検討することにした. 4. 会費について検討し, 前回評議員会での決定の通り行うことを確認した. 5. その他.
